

Berit Herstad

Principal UX Designer

Design lead with 20+ years of experience from large-scale product design and design management, currently working on UX for Microsoft 365 Copilot and Copilot Researcher Agent.

I specialize in end-to-end UX design and management, from strategy and direction to hands-on design for scalable, global products. I enjoy working with ambiguous problems, translating advanced technology into clear and trustworthy user experiences. I value strong design craftsmanship, inclusive leadership, and responsible technology, and I focus on building inclusive teams and design practices that enable growth, collaboration, and meaningful impact.
